

Navigation Mapping Workshop

State of the Map 2018

Kajari Ghosh • Minh Nguyễn
Mapbox

Before we begin

- You can use either iD or JOSM to make edits to OSM
- This is not a general introduction to mapping
- Mainstream tagging – not proposing/promoting obscure tags today

How do I get there?

45.4801, 9.2172

45.4780, 9.2270

Bicycle (GraphHopper) 

[Go](#)

[Reverse Directions](#)

Directions

Distance: 994m. Time: 0:04.

Ascend: 3m. Descend: 9m.

-  1. Continue onto Viale Abruzzi 20m
-  2. Turn right onto Via Donatello 400m
-  3. At roundabout, take exit 4 onto Via Benedetto Spinoza 300m
-  4. Keep left onto Piazza Leonardo da Vinci 90m
-  5. Turn right 170m
-  6. Arrive at destination

Directions courtesy of [Graphhopper](#)

Restrictions

Mall Road

Florence Mall

- [ice skates=*](#)
-  [horse=*](#) (horse riders)
- [vehicle=*](#) (category: any vehicle)
 - **Non-motorized vehicle**
 - **Single-tracked**
 -  [bicycle=*](#) (cyclists)
 - **Double-tracked**
 -  [carriage=*](#) (horse(s) and carriage)
 -  [trailer=*](#) (needs to be towed by another vehicle which has its own restrictions)
 -  [caravan=*](#) (a  [travel trailer](#), also known as caravan)
 - [motor vehicle=*](#) (category: any motorized vehicle)
 - **Single-tracked**
 -  [motorcycle=*](#) (a 2-wheeled motor vehicle, allowed to drive on motorways)
 - [moped=*](#) (motorized bicycles with a speed restriction; e.g., at most a 50 cc engine or max. speed of about 45 km/h)
 -  [mofa=*](#) ("low performance moped", usually with a maximum design speed of 25 km/h)
 -  **Double-tracked** (category: motor vehicles with more than 2 wheels/more than 1 track)
 -  [motorcar=*](#) describes all double tracked motor vehicles, including automobiles / (passenger) cars. Motorcar=no means 'no entry for any power driven vehicle except two-wheeled motor cycles without side-car'
 -  [motorhome=*](#) (a  [motorhome](#))
 - [tourist bus=*](#) describes a bus that is not acting as a public transport bus service, usually for long-distance travel but not always
 -  [coach=*](#) a bus for long-distance travel, not part of a public transport bus service
 - [goods=*](#) (light commercial vehicles; e.g., goods vehicles with a maximum allowed mass of up to 3.5 tonnes)
 -  [hgv=*](#) (heavy goods vehicle; e.g., goods vehicles with a maximum allowed mass over 3.5 tonnes)
 -  [hgv articulated=*](#) articulated heavy goods vehicle
 -  [agricultural=*](#) (agricultural motor vehicles; e.g., tractors) that have additional restrictions; e.g., a 25 km/h speed limit)
 - [atv=*](#) a.k.a. *Quad (bike)* (Restricted to or permissive for vehicles 50 in, 1.27 m, or less in width) still in [proposal stage](#). You may want to use [maxwidth=1.27](#) instead.
 - [snowmobile=*](#)
 - **By use**
 - [psv=*](#) (public service vehicle)
 -  [bus=*](#) (a heavy bus acting as a public service vehicle)
 - [minibus=*](#) (a light bus acting as a public service vehicle)

Highway exits and destination signs

Demo

Turns and lanes

Turns

- For the router - **Turn Restrictions**
- For human friendly experience - **Turn Lanes**

Turn Restrictions

Extremely important for navigation.

Coverage in OSM is scant.

They don't add much in terms of visual maps so they've been overlooked.

YOU can help!

Turn Lanes

Important because they help the driver prepare for a large intersection by getting into the correct lane

Demo

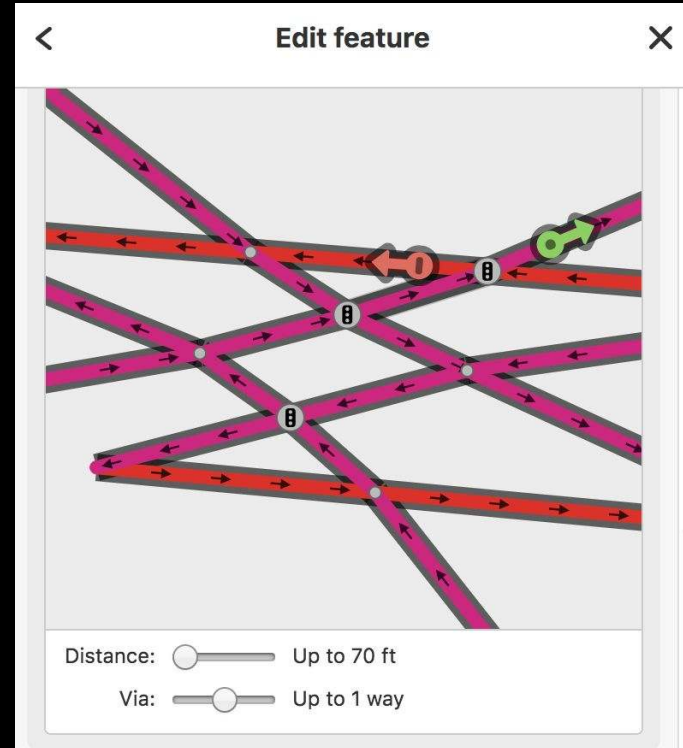

Lanes in the future

- change:lanes
- transit:lanes and transit relations
- Per-lane entrance and exit destinations

Intersections

Intersection Mapping

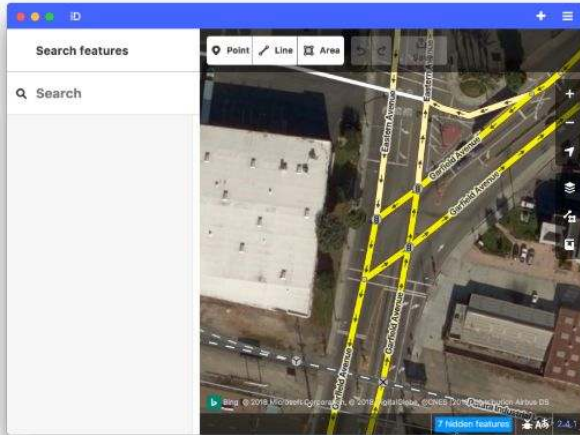

1. Make sure all the possible paths through the intersection are mapped, but no more.

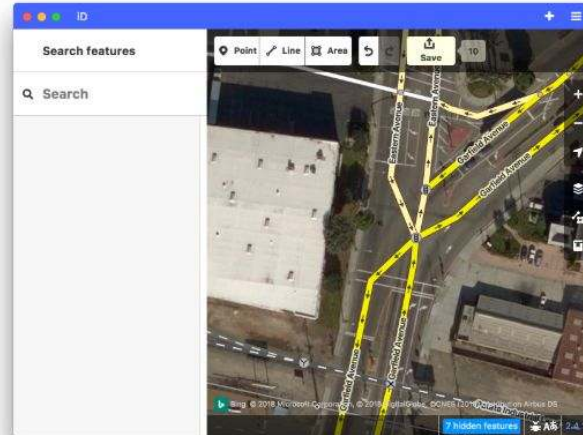

Intersection Mapping

2. Avoid contorting through roads.

✓ Recommended

✗ Not recommended

Intersection Mapping

3. Make sure to tag turn lanes throughout the intersection.

Look here for more details

<https://www.mapbox.com/mapping/mapping-for-navigation/modeling-intersections-for-map-navigation/>

Complex Intersections

Complex intersections are designed to allow large volumes of traffic move through limited space safely and efficiently.

Examples:

- Single-point urban interchange (SPUIs)
- Continuous Flow Intersection (CFI)
- Diverging Diamond Interchange (DDI)
- Superstreet
- Turbo Roundabout

SPUIs

Starting points
